Pebble Rubble

Pebble Rubble is a sensory experience. An illusion that lures us and captivates us, altering our perception of time. Alongside our frenetic daily routine, nature's slow and boundless rhythm.

“Our new system of furniture for Moroso took its forms from found shapes in nature. As children in our native Sweden, our playground was the forest, and we imagined rocks, moss and fallen trees to be furniture and places for the body to rest and occupy. For this seating group, we 3D scanned rocks we saw on our many forest walks, and composed these organic shapes together into furniture pieces.”

Il sistema Pebble Rubble esprime un'esperienza sensoriale. Una piacevole illusione che ci attrae e incuriosisce, alterando, oltre ai sensi, la nostra percezione del tempo: veloce e frenetico quello della quotidianità, lento e imperscrutabile quello della natura. "Il nostro nuovo sistema per Moroso si ispira alle forme trovate in natura. Da bambini nella nostra nativa Svezia, il nostro parco giochi era la foresta e immaginavamo rocce, muschio e alberi caduti come mobili e luoghi in cui il corpo può riposare. Per questa collezione di posti a sedere, abbiamo scansionato in 3D le rocce che abbiamo visto durante le nostre numerose passeggiate nella foresta e abbiamo composto queste forme organiche in mobili".

Pebble Rubble

Das Pebble-Rubble-System, entworfen wurde, ist Ausdruck einer sensorischen Erfahrung. Eine angenehme Illusion, die uns anzieht und fasziniert und die nicht nur unsere Sinne, sondern auch unsere Zeitwahrnehmung verändert: die schnelle und hektische des Alltags, die langsame und unergründliche der Natur. „Unser neues System für Moroso ist von Formen aus der Natur inspiriert. Als Kinder in unserer schwedischen Heimat war unser Spielplatz der Wald, und wir stellten uns Felsen, Moos und umgestürzte Bäume als Möbel und Ruheplätze für den Körper vor. Für diese Sitzmöbelkollektion haben wir die Felsen, die wir bei unseren vielen Waldspaziergängen gesehen haben, in 3D gescannt und diese organischen Formen zu Möbeln zusammengestellt“.

Le système Pebble Rubble, exprime une expérience sensorielle. Une agréable illusion qui nous attire et nous intrigue, modifiant non seulement nos sens mais aussi notre perception du temps: celui de la vie quotidienne, rapide et frénétique et celui de la nature. « Notre nouveau système pour Moroso s'inspire des formes trouvées dans la nature. Lorsque nous étions enfants, dans notre Suède natale, notre terrain de jeu était la forêt et nous imaginions les rochers, le lichen et les arbres comme des meubles et des lieux où le corps pouvait se reposer. Pour cette collection d'assises, nous avons scanné en 3D les rochers que nous avons pu observer lors de nos nombreuses promenades en forêt et nous avons recomposé ces formes organiques en meubles ».
