

SAMET HIGH COLLECTION

GERVASONI

1882

(I) **Attenzione per i dettagli, ricerca materica, componibilità e versatilità nei modi di utilizzo sono gli aspetti che definiscono il divano Samet di Federica Biasi, un divano senza regole che esprime al contempo artigianalità e capacità industriale. L'aspetto quintessenziale dell'oriente di Samet, polifunzionale e configurabile, viene ulteriormente enfatizzato da un ampliamento di gamma con l'introduzione di un'inedita variante. Samet High si arricchisce aggiungendo alla seduta un sottile cuscino trapuntato per avvicinare ancora di più il prodotto all'immaginario thailandese da cui nasce l'ispirazione del progetto.**

(E) Attention to detail, material research modularity and versatility of use are the aspects that define the Samet sofa by Federica Biasi, a sofa without rules that expresses both craftsmanship and industrial capacity. The quintessential oriental aspect of Samet, multifunctional and configurable, is further emphasised by an extension of the range with the introduction of an unprecedented variant. Samet High is enriched by adding a thin quilted cushion to the seat to bring the product even closer to the Thai imagery from which the design was inspired.

(F) Le souci du détail, la recherche des matériaux, la modularité et la polyvalence d'utilisation sont les aspects qui définissent le canapé Samet de Federica Biasi, un canapé sans règles qui exprime à la fois l'artisanat et la capacité industrielle. La quintessence orientale de Samet, multifonctionnelle et configurable, est encore soulignée par l'extension de la gamme avec l'introduction d'une nouvelle variante. Samet High est enrichi par l'ajout d'un fin coussin matelassé à l'assise, ce qui rapproche le produit de l'imagerie thaïlandaise dont le design s'est inspiré.

(D) Die Liebe zum Detail, die Materialforschung, die Modularität und die Vielseitigkeit der Nutzung sind die Aspekte, die das Sofa Samet von Federica Biasi definieren, ein Sofa ohne Regeln, das sowohl handwerkliches Können als auch industrielle Kapazität zum Ausdruck bringt. Die orientalische Quintessenz von Samet, multifunktional und konfigurierbar, wird durch die Erweiterung der Produktpalette mit der Einführung einer neuen Variante noch unterstrichen. Samet High wird durch die Hinzufügung eines dünnen gesteppten Kissens auf der Sitzfläche bereichert, um das Produkt noch näher an die thailändische Bildsprache heranzuführen, von der das Design inspiriert wurde.

Technical Drawings

IT→ Struttura in legno multistrato con cinghie elastiche preparata con poliuretano espanso a quote differenziate, localizzate, ad alta densità. Topper fisso in poliuretano espanso a quote differenziate. Rivestimento della struttura e del topper in fibra termolegata traspirante accoppiata alla fodera amovibile in tessuto tramite trapuntatura. I cuscini di schienale sono realizzati in fibra di poliestere di alta qualità che assicura il ripristino della forma originaria del cuscino dopo l'uso. Cuscini volanti con imbottitura in misto piuma.

EN→ Structure in plywood, with elastic belts, upholstered with high resilience, variable-density polyurethane foam. Fixed variable-density polyurethane foam topper. Structure and topper covered with breathable heat-bonded fiber bonded to the removable fabric cover by quilting. Back cushions are made of high-quality polyester fiber, which ensures that the original shape of the pillow is restored after use. Loose cushions with dacron and down filling.

FR→ Structure en bois multiplis avec des sangles élastiques, rembourrage en polyuréthane expansé à densité différenciée haute résilience. Surmatelas fixe en polyuréthane expansé à densité différenciée. Revêtement de la structure et du surmatelas en fibre thermocollée respirante liée à la housse amovible en tissu matelassé. Les coussins de dossier sont réalisés en fibres de polyester de haute qualité, ce qui permet de retrouver la forme originale du coussin après utilisation. Coussins déco avec rembourrage en dacron et plumes.

DE→ Gestell aus Sperrholz, mit elastischen Riemen, Polsterung aus PU-Schaum mit differenzierter, hoher Dichte. Fest verbundener Topper aus PU-Schaum mit differenzierter Dichte. Weißpolsterbezug mit atmungsaktiver thermogebundener Faser gesteppt zusammen mit der abnehmbaren Husse aus Stoff. Die Rückenkissen sind aus hochwertigen Polyesterfasern, die dafür sorgen, dass das Kissen nach dem Gebrauch seine ursprüngliche Form wieder erhält. Lose Kissen mit Polsterung aus Dacron und Daunen.
